EXPLANATION

NOT ALL PARISHES will have use for all the columns provided in this Register; but ample provision has been made for the varying requirements of all sizes of parishes, since it is easier to disregard some columns than to add others in a record of this sort. On the opposite page is a sample showing how the columns may be used.

The first section provides columns for the *date*, the *day*, the *service*, the *place* where the service was held, and the *hour* when it was held. These columns are self-explanatory.

The next sections provide columns for recording the *number present* at the service and for the *cumulated total attendance*; the *number of communions* made, and the *cumulated total of communions*. These two "total to date" columns are of particular importance. They will enable the clergyman to tell at a glance, at any time, the total number of persons attending all services to that date, as well as the number of communions made to date.

In the fourth section, two columns have been provided for the *offering*, showing the amount received and the object of the offering. Even where a separate offering record is kept, these columns will be useful for recording offerings on special occasions for special objects.

The next three sections provide for the *serial numbers* of various services which are needed in compiling the figures for the annual *Parochial Report*. The fifth section provides separate columns for the *serial numbers of public celebrations of the Holy Communion* on Sundays and weekdays, and also for *private celebrations*. The sixth section provides for *serial numbers of Morning and Evening Prayer* on Sundays and weekdays, and also the *serial numbers of other offices and private services*. Finally, the seventh section provides for *serial numbers of all services* on Sundays and weekdays. Thus at any time in making up a report, the clergyman can tell quickly just how many services have been held on Sundays or weekdays, how many times the Holy Communion has been celebrated in the parish, and how many times Morning or Evening Prayer and other offices have been said during the year.

The next three columns provide for recording the names of the *celebrant* or *officiant*, *preacher*, and *server*. The last column, for *memoranda*, may be used for recording the weather or other miscellaneous information.

If the columns of this Register are carefully used, anyone using it can, at the end of the year, or at the end of any period, secure quickly and easily any information necessary for making out a statistical report.

Attention is called to the blank lines provided on the title page, where the name of the parish or mission should be filled in and also the dates of this record.

Mr. Michael Curry, the son of a former Rector of St. Philip's was ordained to the Diaconate. Mr. Laughton Thomas another son of St. Philip's was ordained Deacon in New Jersey at the same time. Both young men grew up in this Parish. A day of great rejoicing for all the people of St. Philip's											
a Farewell Ritual by the boys' choir for the Rev. Dr. E. Don Taylor. Dinner followed in the P.H.
