

The mucus is the product of
a germ it grows larger
from thicker under mucus
when torn off seems to make
more angry Atomiser ^{triumph} with
go farther than treating with
pencil Lime water - one of
best, will dissolve exudation
better than soda water
every half hr. Mucous salt
Pot Sulphate ^{phate} in water
some claim good results
but He does not Bromine
vapor & by mouth thinks in
contact with others maybe good
sulpho carbonate 4 or 8 grs
dry every 3 - 4 hrs Benzoate
of Soda Boric acid S, no
effect in his tube cured
a very little best
Irradiation of wound will
take diph chlor, also syncope
to me under two yrs Make
apr in Adult -

pyloric just below 9th of
transverse fascia
Chronic Peritonitis the

Veratrum Viride very good sed
ative in latter Phurisy
Stomach firmly attached to
diaphragm

You can take this home
and copy these notes
if you wish but you
will find them in
bad shape

Amurican The spleen has
a very elastic
coat so may
be very much enlarged

Hope that little red face
will graduate & do not want
to see him here next year
I hope that old one in front
of Mrs S. will too.

Mr. A. seeing a
little manuscript. Did it or
not to it.
