THIS revised edition of the Service Record Book has been printed to comply with the requirements of the uniform parochial report blanks now in general use throughout the Church. Provision is made for a systematic record of all Sunday, Holy Day, and other services. A feature of great value is that the total of services is shown by reference to the last entry. Data for convention reports, anniversary sermon, etc., may be obtained at a moment's notice.

### Explanation

*The partly filled page will show the appearance of the book when in use. The blanks at the top of page for date make it possible to quickly refer to any week for reference. The column for record of the number of services is divided into three sections, for Sundays, Holy Days, Other Days, so that by numbering each service in order, beginning at No. 1, and entering in the proper column, a complete record of the number of Sunday and other services is kept. The same way provision is made for the separate record of public and private celebrations of the Holy Communion, and the number of communicants at each service. Space is left for "notes" or for the signature of the Preacher at any special service, or the record of hymns sung, etc. The book will last the average parish about four years.*
