Dear Mr. Parks:

This response to your repeated interest in our property at 222 Northland is late, and I know that it is not in keeping with your desires.

Our Board of Directors has formally adopted a motion to retain this property, without change in the present use and agreements.

While we certainly are aware of your need, and know that the possibilities of your interest in it's use would be very much in keeping with our own philosophies, we feel that in continuing the present situation we are, in fact, providing a Ministry to people. This "Ministry" serves people through the Skills Assessment Center as well as utilization of the Church proper in Worship Services.

We pray that God bless your efforts and that His will be done in providing a direction for your congregation.

Sincerely,

William A. Goldbach
President
