

I wish ^{to send} you a long &
perfectly delightful letter but
saw one - but there is no
material ^{here} - & also no type-
writer - nothing but a grateful
heart - which is haphazard
flat as paper - & then - with
after effect has made me
unwieldy for the time -
Hume (with an E) sends her
love & many wishes for the
share of the orange - which
she hasn't had - she is waiting
to finish the miniature but
can't get enough time, get,
with other work. Please be
sensible about after sauce
& damn the washing - which
is as another cause of civilisation
- & forgive an unusual
sliver of note - with much
love. f. C. M.
